"I was all wheesed up sad coughed most of the night. Thought my threat would split open, the cough, dryness and pain were so terrible. Every time the weather changed I caught cold, and each cold seemed to be added to all the others that I had before it. I tried a dosen different medicines. None of them were any real help. The cough syrups I took upset my storeach and put me all out of sorts. Then I got Cerizane, and I never knew anything to act so quickly as that medicine did. It loosened the cough right up, took the heat and soreness out of my throat, stopped the elest pains and made me perfectly fit in less than a week."

Cerizane is one of the famous line of Wiesol preparations. It contains no chloroform, opium or any other harmful drug. New England doctors have used it for nearly a hundred years.
